Like many of the world's great wines, our wine list is created to reflect a sense of place. Cavallo Point sits at the gateway to California's venerable North Coast, home to some of the world's most renowned wine-growing regions. Our list celebrates the history of wine in California, and presents a vision of where it is going. From the state's legendary wineries that laid the foundation, and the cult wines driving the mystique, to the small production, artisanal producers who are pushing the envelope of quality, we strive to tell the true story of wine in California.

While we are passionate about the wines made here by our friends and neighbors, we would be remiss to ignore the incredible wines produced around the globe. The centuries old wine-making traditions brought here from the old-world have been built upon to become the California wine culture that we enjoy today. We pay homage to those traditions through our extensive collection of the finest wines produced throughout the world.

The Cavallo Point wine list is comprised of over 1,200 selections from 14 countries, with vintages dating back to 1914. Our Sommeliers are always happy to offer their guidance and recommendations. If you have a special bottle from your cellar you would like to enjoy while dining with us, our corkage fee is \$30.00 per 750 ml up to a total of three 750 ml bottles, and we will gladly waive one corkage fee for each equivalent bottle purchased from our list.

We thank you for coming to Cavallo Point, and are happy you can spend some time with us at this very special place. Whether you are here for a few hours or a few days, we hope to make your time with us memorable and enjoyable.

### PINOT NOIR

Over the last decade Pinot Noir has become more fashionable to Americans thanks to superb elegance, complex fruit, and spicy aromatics.

#### CARNEROS

The first wine region in California to be defined by climate, rather than political boundaries, it stretches over both Sonoma and Napa counties. The bay breeze helps nurture spicy Pinots, with tight structure, and high acidity with pronounced red cherry and berry flavors.

#### SONOMA COAST

The largest AVA in Sonoma County spanning 750 square miles. Some of the most sought after Pinot Noir vineyards are planted here. Extreme coastal producers such as Peay and Hirsch have higher acidity levels while producers such as Clouds Rest from the southern part of the AVA have a more concentrated red fruit profile.

#### POMMARD

*There are no Grand Cru vineyards within Pommard, but several highly regarded Premier Crus. Pommard wines range from rustic to velvety, but usually have tones of red and dark fruit, as well as earth, mineral and spice notes. The most powerful reds in the Côte de Beaune, they show at their best with a few years on them.*

### CÔTE CHALONNAISE

The Côte Chalonnaise is considered a southern extension of the Côte de Beaune, but here the Côte d'Or plateau gives way to scattered hills and higher altitudes which moderate the drier climate. Pinot Noir is again the predominant red grape varietal, yielding lovely strawberry, blueberry and black currant notes, which pair nicely with grilled meats, wild game and ripe cheeses. Top producers make this an excellent region for quality wines at great value.

### MERCUREY

The majority of wine production from Côte Chalonnaise hails from Mercurey, which being in the northern part of the region can mirror the wines of Côte de Beaune. Medium to full-bodied with velvety smooth soft tannins, complemented by spicy cherry and plum flavors and earthy undertones. Mercurey wines drink well very young and also are the longest-lived wines from the Côte Chalonnaise.

### BEAUJOLAIS

Beaujolais stands alone as the benchmark region for the Gamay grape. Though styles can vary from North to South, these wines typically show pretty red fruit with a slight floral note, and distinct minerality.

## RHÔNE VALLEY

An extremely dynamic wine region in the south of France, following the path of the Rhône River. Red wines in the northern regions are dominated by Syrah, while the southern regions focus on blending, with Grenache as the dominant grape.

## CÔTE-RÔTIE

Rustic wines with power and finesse. Syrah, often co-fermented with Viognier, these wines show white pepper, mineral, crushed flowers, roast meat, and coffee notes with a thin layer of acidity to complement the finish.

### CHÂTEAUNEUF-DU-PAPE

Although Châteauneuf's main focus is on Grenache, producers have the freedom to make wine from 18 indigenous red and white grape varietals, allowing them to offer wines in a range of styles. Generally, notes tend toward red fruits, dried herbs, cinnamon, vanilla, game, and hints of forest floor.

### VENETO

Located in northeast Italy between Verona and the Adriatic. Native varieties are Corvina, Rondinella and Molinara. The Amarone wines are made from native grapes that have been harvested, dried, pressed, fermented, and then aged in wood casks. It can take hours for the wines to open but they are worth the time.

Full-bodied, very ripe and raisiny with varying notes of licorice, tobacco, chocolate and fig. The Valpolicella wines are made from the same stock as Amarone in a "Ripasso" style by reinforcing the thinner grapes with unpressed and dried grape skins from the Amarone resulting in lower alcohol, fine tannins and fruity fragrance.

7282 | G. Campagnola - Amarone della Valpolicella Classico 2015 75.

### PIEDMONT

Some of the most long-lived red wines in Italy are produced here in the hills of the Langhe. The villages of Barolo and Barbaresco have established a prestigious collection of single vineyards comparable to the Cru system in Burgundy.

### BARBARESCO

While often compared to Barolo, these wines are generally softer and more elegant than their neighbor, offering a spicy aromatic with enough acidity and tannin to complement a wide variety of cuisine. Dry, rich, powerful wines, with aromas of spice, pepper and black cherry.

1627 | La Spinetta - Staderi 2004 400.

### BAROLO

Barolos are rich, concentrated, heady wines with substantial tannins, acidity and power. The softer, fruit driven wines are known to age rapidly while more structured versions mature slower showing complex aromas of plums, dried roses, licorice, leather, and tar notes.

The wines are based on Nebbiolo, either as blends, in the Langhe-Rossos, or in varietally specific bottlings of Langhe-Nebbiolo. Typically, these wines are powerful with floral aromatics and notes of spice, tar and tobacco.*

### TUSCANY

#### “SUPER TUSCAN”

*Super Tuscan*s are red blends that stray from the strict laws governing the wines of Tuscany. The native Sangiovese grape is often blended with French varietals such as Cabernet Sauvignon, Merlot, Cabernet Franc and Syrah. Some bottle 100% varietal wines, a practice forbidden by many DOCs in Tuscany. The result of these experiments has been the creation of some of Italy's most sought after wines.

### LEBANON

The improbable blend of Cabernet Sauvignon, Cinsault and Carignan from Lebanon's Bekaa Valley, gets at least a year on French oak, rests, and at year three is blended and bottle-aged for four more years prior to release. Drinkable upon release, these ageworthy, complex wines are best after at least ten years and just get better with age. The nose varies from wild herbs, earth, spice and anise to sweet fruit, tobacco and smoke. Musar reds are distinguished by two characteristics that are typically considered faults in most wines: volatile acidity (which conveys the smell of acetone) and Brett (its sensory compounds reminiscent of funky barnyard). Incredibly interesting wines.

### PORT

Ports are named after the city of Oporto in Portugal, where they have made these dense, sweet wines for more than 300 years. It is common for blends to contain a dozen or more varietals of the more than 80 that are grown in Portugal. The wines are then fortified with brandy to stop fermentation, and boosting alcohol levels to 18-20%.

### VINTAGE

Vintage ports come from a single year and are aged for two years in wood before maturing in bottle. These are top quality ports, but produced only three to four times per decade.

### MADEIRA

Owned by Portugal, Madeira is a small, volcanic island off the coast of Morocco that produces, perhaps, the world's most resilient wine. There are four basic styles of Madeira: Sercial, the driest, is noted for almond aromas, nerve, and a searing finish. Verdelho is medium-dry, smoky, with a tang of acidity. Bual is medium-rich with higher sugar levels and balanced acidity. Malmsey is the sweetest Madeira with notes of caramel, toffee and vanilla, and gets richer with age.

### SHERRY

These fortified wines from the city of Jerez in southwest Spain vary in style from Fino, a dry aperitif, to a richer, sweeter style like Oloroso. Sherry is produced by adding grape spirits to finished wine, then continuously blending together several different vintages stored in a series of casks, called a solera. Up to 33% of each cask can be withdrawn in any year and re-filled from recent vintages to ensure consistency of the finished wine. Oxidation plays an important role in the flavors of Sherry.
