## CHAMPAGNE

### MULTI-VINTAGE

*Less than one-twelfth of the world's sparkling wine comes from Champagne in Northeast France. Bubbly can only be called "Champagne" when it comes from this specific area. Multi-vintage wines are a blend of several vintages, in order to maintain similar aromatics and flavor profiles from year to year*

## CALIFORNIA

*Several French Champagne houses produce sparkling wine in California, the top two being G.H. Mumm's Mumm Napa and Louis Roederer's Roederer Estate; and you can't forget native California sparkling wine house Schramsberg. Most California sparkling wines are made using méthode traditionnelle. These wines are elegant, but are often slightly more fruit-forward than French bubbliies.*

### CHARDONNAY

*From dozens of admired estates to small boutiques, California produces thousands of versions of one of the world's most popular and versatile grape varieties. From crisp, lively and lip-smacking to rich, powerful, structured and creamy, the fruit profiles can range from apple and pear to tropical fruits and from unoaked to toasty.*

### NAPA VALLEY

*Chardonnays from Napa Valley are ripe, firm and full-bodied, with notes of green apple, pear, and citrus. Some producers use varying amounts of oak to add vanilla and toasty notes. Some try to preserve acidity levels by fermenting in stainless steel, while others use malolactic fermentation to add creaminess.*

6954	Failla - Haynes Vineyard, Coombsville	2016	120
------	---------------------------------------	------	-----

### CARNEROS

*This cool, foggy and windy area produces crisp Chardonnays, light to medium in body with prevalent citrus and apple notes.*

7449	Larry Hyde - Hyde Vineyard, Estate	2016	132
7166	Shafer Vineyards - Red Shoulder Ranch	2017	126

### SONOMA COAST

*This AVA spans 750 square miles of Sonoma County, from Petaluma in the south, to the Mendocino border in the north. These wines are typically delicate, with bright stone fruit, pear and apple notes, with amazing balance in fruit, acidity and minerality.*

## CHARDONNAY

### KNIGHTS VALLEY

*North of Calistoga, and across the border to Sonoma County, this valley is an enclosed bowl providing a warm climate for vines, producing opulent, lush wines that are often compared to the great white Burgundies. The majority of Peter Michael's legendary Chardonnay vines are planted here.*

### BOURGOGNE

*Most villages in Burgundy produce Bourgogne, which are intended to be consumed young. Many are elegant to match with delicate dishes, e.g., salads, tarts, simmered beef and vegetables, and even with fish dishes and hard cheeses. Prevailing notes are strawberry, blueberry and cherry, and with age, underbrush and mushroom.*

### CÔTE CHALONNAISE

*The Côte Chalonnaise is considered a southern extension of the Côte de Beaune, but here the Côte d'Or plateau gives way to scattered hills and higher altitudes which moderate the drier climate. Pinot Noir is again the predominant red grape varietal, yielding lovely strawberry, blueberry and black currant notes, which pair nicely with grilled meats, wild game and ripe cheeses. Top producers make this an excellent region for quality wines at great value.*

#### MERCUREY

*The majority of wine production from Côte Chalonnaise hails from Mercurey, which being in the northern part of the region can mirror the wines of Côte de Beaune. Medium to full-bodied with velvety smooth soft tannins, complemented by spicy cherry and plum flavors and earthy undertones. Mercurey wines drink well very young and also are the longest-lived wines from the Côte Chalonnaise.*

## RHÔNE VALLEY

*An extremely dynamic wine region in the south of France, following the path of the Rhône River. Red wines in the northern regions are dominated by Syrah, while the southern regions focus on blending, with Grenache as the dominant grape.*

### CÔTE-RÔTIE

*Rustic wines with power and finesse. Syrah, often co-fermented with Viognier, these wines show white pepper, mineral, crushed flowers, roast meat, and coffee notes with a thin layer of acidity to complement the finish.*

### CHÂTEAUNEUF-DU-PAPE

*Although Châteauneuf's main focus is on Grenache, producers have the freedom to make wine from 18 indigenous red and white grape varieties, allowing them to offer wines in a range of styles. Generally, notes tend toward red fruits, dried herbs, cinnamon, vanilla, game, and hints of forest floor.*

### VENETO

*Located in northeast Italy between Verona and the Adriatic. Native varietals are Corvina, Rondinella and Molinara. The Amarone wines are made from native grapes that have been harvested, dried, pressed, fermented, and then aged in wood casks. It can take hours for the wines to open but they are worth the time.*

*Full-bodied, very ripe and raisiny with varying notes of licorice, tobacco, chocolate and fig. The Valpolicella wines are made from the same stock as Amarone in a "Ripasso" style by reinforcing the thinner grapes with unpressed and dried grape skins from the Amarone resulting in lower alcohol, fine tannins and fruity fragrance.*

### PIEDMONT

*Some of the most long-lived red wines in Italy are produced here in the hills of the Langhe. The villages of Barolo and Barbaresco have established a prestigious collection of single vineyards comparable to the Cru system in Burgundy.*

#### BARBARESCO

*While often compared to Barolo, these wines are generally softer and more elegant than their neighbor, offering a spicy aromatic with enough acidity and tannin to complement a wide variety of cuisine. Dry, rich, powerful wines, with aromas of spice, pepper and black cherry.*

The wines are based on Nebbiolo, either as blends, in the Langhe-Rossos, or in varietally specific bottlings of Langhe-Nebbiolo. Typically, these wines are powerful with floral aromatics and notes of spice, tar and tobacco.*

#### MONTALCINO

*A region in Tuscany focusing on wines produced from Sangiovese Grosso. The wines are rich, intense and fleshy, with notes of blackberry, black cherry, raspberry, chocolate, leather, violets, vanilla, and game; sweet tobacco notes develop with age. More complex, and longer-lived than the Sangiovese produced in Chianti.*

#### "SUPER TUSCAN"

*Super Tuscans are red blends that stray from the strict laws governing the wines of Tuscany. The native Sangiovese grape is often blended with French varietals such as Cabernet Sauvignon, Merlot, Cabernet Franc and Syrah. Some bottle 100% varietal wines, a practice forbidden by many DOCs in Tuscany. The result of these experiments has been the creation of some of Italy's most sought after wines.*

#### LEBANON

*The improbable blend of Cabernet Sauvignon, Cinsault and Carignan from Lebanon's Bekaa Valley, gets at least a year on French oak, rests, and at year three is blended and bottle-aged for four more years prior to release. Drinkable upon release, these ageworthy, complex wines are best after at least ten years and just get better with age. The nose varies from wild herbs, earth, spice and anise to sweet fruit, tobacco and smoke. Musar reds are distinguished by two characteristics that are typically considered faults in most wines: volatile acidity (which conveys the smell of acetone) and Brett (its sensory compounds reminiscent of funky barnyard). Incredibly interesting wines.*

## PORT

*Ports are named after the city of Oporto in Portugal, where they have made these dense, sweet wines for more than 300 years. It is common for blends to contain a dozen or more varietals of the more than 80 that are grown in Portugal. The wines are then fortified with brandy to stop fermentation, and boosting alcohol levels to 18-20%.*

## VINTAGE

*Vintage ports come from a single year and are aged for two years in wood before maturing in bottle. These are top quality ports, but produced only three to four times per decade.*

### MADEIRA

*Owned by Portugal, Madiera is a small, volcanic island off the coast of Morocco that produces, perhaps, the world's most resilient wine. There are four basic styles of Madeira: Sercial, the driest, is noted for almond aromas, nerve, and a searing finish. Verdelho is medium-dry, smoky, with a tang of acidity. Bual is medium-rich with higher sugar levels and balanced acidity. Malmsey is the sweetest Madeira with notes of caramel, toffee and vanilla, and gets richer with age.*

### SHERRY

*These fortified wines from the city of Jerez in southwest Spain vary in style from Fino, a dry aperitif, to a richer, sweeter style like Oloroso. Sherry is produced by adding grape spirits to finished wine, then continuously blending together several different vintages stored in a series of casks, called a solera. Up to 33% of each cask can be withdrawn in any year and re-filled from recent vintages to ensure consistency of the finished wine. Oxidation plays an important role in the flavors of Sherry.*
