CHAMPAGNE

MULTI-VINTAGE

Less than one-twelfth of the world's sparkling wine comes from Champagne in Northeast France. Bubbly can only be called "Champagne" when it comes from this specific area. Multi-vintage wines are a blend of several vintages, in order to maintain similar aromatics and flavor profiles from year to year

CALIFORNIA

Several French Champagne houses produce sparkling wine in California, the top two being G.H. Mumm's Mumm Napa and Louis Roederer's Roederer Estate; and you can't forget native California sparkling wine house Schramsberg. Most California sparkling wines are made using *méthode traditionnelle*. These wines are elegant, but are often slightly more fruit-forward than French bubbly.

CHARDONNAY

From dozens of admired estates to small boutiques, California produces thousands of versions of one of the world's most popular and versatile grape varieties. From crisp, lively and lip-smacking to rich, powerful, structured and creamy, the fruit profiles can range from apple and pear to tropical fruits and from unoaked to toasty.

NAPA VALLEY

Chardonnays from Napa Valley are ripe, firm and full-bodied, with notes of green apple, pear, and citrus. Some producers use varying amounts of oak to add vanilla and toasty notes. Some try to preserve acidity levels by fermenting in stainless steel, while others use malolactic fermentation to add creaminess.

CHARDONNAY

KNIGHTS VALLEY

North of Calistoga, and across the border to Sonoma County, this valley is an enclosed bowl providing a warm climate for vines, producing opulent, lush wines that are often compared to the great white Burgundies. The majority of Peter Michael's legendary Chardonnay vines are planted here.

OTHER DOMESTIC WHITES AND BLENDS

Many California wineries have made substantial commitments to French varietals in the past few decades. Originally from the Loire Valley, Chenin Blanc is light bodied, with floral, honey, apple, lemon and pineapple notes. From the Rhône Valley, Viognier shows spicy stone fruit flavors and floral aromas.

german white

German whites are a true lesson in the balance between acidity and sweetness in a wine. The top whites are classified through the Prädikatswein system (Kabinett, Spätlese, Auslese, Beerenauslese, Trockenbeerenauslese), meaning as ripeness increases so does fruit character and sugar levels. These wines show prevalent apricot, apple, and citrus tones.

ROSÉ

Rosés can be made from many different red varietals. The three most common techniques are maceration for a few hours (#1), saignée, where juice is bled off during the first few hours of making red wine (#2) and blending a bit of red into a vat of white (#3 and rarely used). Versatile and food-friendly, to go with everything from light dishes to bbq. Notes are typically strawberry, rose petal, citrus zest, melon and rhubarb.

PINOT NOIR

Over the last twenty years Pinot Noir has become more fashionable to Americans thanks to superb elegance, complex fruit, and spicy aromatics.

SONOMA COAST

The largest AVA in Sonoma County spanning 750 square miles. Some of the most sought after Pinot Noir vineyards are planted here. Extreme coastal producers such as Peay and Hirsch have higher acidity levels while producers such as Clouds Rest from the southern part of the AVA have a more concentrated red fruit profile.

SANTA BARBARA COUNTY

A diverse appellation with many micro-climates thanks to its relationship to the ocean. Due to heavy temperature fluctuation and proximity to the Pacific, these wines achieve both high levels of ripeness and acidity, resulting in powerful wines with notes of red and black fruit, cola, wild herbs and clove.

BORDEAUX - LEFT BANK

Made up of the Médoc and Graves regions, the wines on the Left Bank of the Gironde River are extremely well known, with many Chateaux producing great wines for centuries. Typically 70%, or more, Cabernet Sauvignon, blended with Merlot, Cabernet Franc, Malbec and Petit Verdot, these wines are smooth and polished, often with cedar and blackcurrant notes. Using a classification system from 1855, top producers are rated from “First Growth” to “Fifth Growth”, with some unclassified producers making fine wine as well. Very ageworthy.

SAINT-ESTÈPHE

This northernmost, bucolic appellation of the Médoc has gravelly, clay soil resulting in medium to full-bodied wines with high acidity, and notes of dry black fruits, cedar and minerals.

PAUILLAC

Structured and sturdy, loads of cassis notes, sometimes showing a mineral component described as lead pencil shavings, with notes of cedar, blackcurrant and cigar box. Home to three of the five First Growths.

BORDEAUX - LEFT BANK

SAINT-JULIEN

Subtle, well balanced and long-lived, St. Julien wines are noted for having dusty cedar, cocoa and earth tones backed by a round blackcurrant fruit profile. There are no First Growth wines, but five super seconds.

1226	Château Ducru-Beaucaillou	1995	610
7994	Chateau Langoa-Barton	2018	230

MARGAUX

Typically deep ruby in color, with a velvety texture and seductive aromas of cassis and blackberry fruit. Château Margaux is the only First Growth here but there are five Second Growths and one Third.

BORDEAUX - RIGHT BANK

The Right Bank of the Gironde River produces round, rich, and plummy wines with notes of black olive. Dominated by Merlot and Cabernet Franc these wines drink well young and age remarkably.

POMEROL

Here you will find some of the most sought after Bordeaux in the world. Top producers rival the First Growths from the other side of the river in quality and price. Sandy and gravelly soils produce plump and opulent wines rich with fruit including plum and berries, along with violets and truffle notes.

BURGUNDY - CÔTE DE NUITS

The soil and climate in the northern half of the Côte d'Or is ideal for the unpredictable Pinot Noir grape. Young wines are firm and intense with slightly sweet fruit profiles; crushed raspberries, strawberries and cherries. With age the wines shed tannin and show more dried fruit, game and truffle.

MARSANNAY

This is the closest appellation to the city of Dijon. The Pinot Noirs are mediumbodied, with minimum oak, and the fruit, as much red fruit flavors as black, sing out. Best consumed in the first 5-10 years.

Moderate in structure, known for purity and intensity.

CHAMBERTIN CLOS DE BÈZE - GRAND CRU

Perfumed and graceful when young, showing powerful black fruit notes with age.

CHAPELLE-CHAMBERTIN - GRAND CRU

Lighter in color than other Grand Crus, these wines are both elegant and sturdy with a cherry and plum fruit profile.

CHARMES-CHAMBERTIN - GRAND CRU

6927 Domaine Quivy 2015 297

LATRICIÈRES-CHAMBERTIN - GRAND CRU

A bit more restrained than most Grand Crus, but still offers solid red and black fruit notes when young, softening into game and spice notes with age.

MOREY-ST-DENIS

From village to Grand Cru, these wines are typically lighter than Gevrey-Chambertin but firmer than Chambolle-Musigny. Morey-St-Denis has four Grand Cru vineyards within its boundaries. Notes of black fruits, cherries, violet, licorice, game, leather and truffle.

BONNES-MARES - GRAND CRU

Bonnes-Mares produces wines that are firm, tannic, and rich. They need significant time to open up. Crushed strawberries, licorice and game notes.

CLOS DE VOUGEOT - GRAND CRU

Cistercian monks established this walled Grand Cru vineyard in 1000 AD. There are now 50 hectares in the hands of 82 different owners. More dense and robust rather than elegant; when young the wines exhibit red berry notes, but with age will develop deep flavors of blackberry, chocolate, toasted nuts, and underbrush.

ÉCHEZEAUX - GRAND CRU

One of the largest Grand Cru vineyards in Burgundy. The best wines offer rustic black fruit tones when young, maturing to more gamey notes with age.

GRANDS ÉCHEZEAUX - GRAND CRU

A relatively flat vineyard, well regarded as the superior site in Flagey, the limestone and clay soil produces firm, rustic wines with an intense black fruit profile.

VOSNE-ROMANÉE

Between the sturdy Gevrey-Chambertins and delicate Chambolle-Musignys, Vosne-Romanées are opulent and smooth, and some of the most powerful and long-lived wines in Burgundy. The most sought after Grand Cru wines lie within its borders, many owned or produced by the prestigious Domaine de la Romanée Conti.

BOURGOGNE

Most villages in Burgundy produce Bourgogne, which are intended to be consumed young. Many are elegant to match with delicate dishes, e.g., salads, tarts, simmered beef and vegetables, and even with fish dishes and hard cheeses. Prevailing notes are strawberry, blueberry and cherry, and with age, underbrush and mushroom.

CÔTE CHALONNAISE

The Côte Chalonnaise is considered a southern extension of the Côte de Beaune, but here the Côte d'Or plateau gives way to scattered hills and higher altitudes which moderate the drier climate. Pinot Noir is again the predominant red grape varietal, yielding lovely strawberry, blueberry and black currant notes, which pair nicely with grilled meats, wild game and ripe cheeses. Top producers make this an excellent region for quality wines at great value.

MERCUREY

The majority of wine production from Côte Chalonnaise hails from Mercurey, which being in the northern part of the region can mirror the wines of Côte de Beaune. Medium to full-bodied with velvety smooth soft tannins, complemented by spicy cherry and plum flavors and earthy undertones. Mercurey wines drink well very young and also are the longest-lived wines from the Côte Chalonnaise.

RHÔNE VALLEY

An extremely dynamic wine region in the south of France, following the path of the Rhône River. Red wines in the northern regions are dominated by Syrah, while the southern regions focus on blending, with Grenache as the dominant grape.

CÔTE-RÔTIE

Rustic wines with power and finesse. Syrah, often co-fermented with Viognier, these wines show white pepper, mineral, crushed flowers, roast meat, and coffee notes with a thin layer of acidity to complement the finish.

CHÂTEAUNEUF-DU-PAPE

Although Châteauneuf's main focus is on Grenache, producers have the freedom to make wine from 18 indigenous red and white grape varietals, allowing them to offer wines in a range of styles. Generally, notes tend toward red fruits, dried herbs, cinnamon, vanilla, game, and hints of forest floor.

VENETO

Located in northeast Italy between Verona and the Adriatic. Native varieties are Corvina, Rondinella and Molinara. The Amarone wines are made from native grapes that have been harvested, dried, pressed, fermented, and then aged in wood casks. It can take hours for the wines to open but they are worth the time.

Full-bodied, very ripe and raisiny with varying notes of licorice, tobacco, chocolate and fig. The Valpolicella wines are made from the same stock as Amarone in a "Ripasso" style by reinforcing the thinner grapes with unpressed and dried grape skins from the Amarone resulting in lower alcohol, fine tannins and fruity fragrance.

VALPOLICELLA

PIEDMONT

Some of the most long-lived red wines in Italy are produced here in the hills of the Langhe. The villages of Barolo and Barbaresco have established a prestigious collection of single vineyards comparable to the Cru system in Burgundy.

BARBARESCO

While often compared to Barolo, these wines are generally softer and more elegant than their neighbor, offering a spicy aromatic with enough acidity and tannin to complement a wide variety of cuisine. Dry, rich, powerful wines, with aromas of spice, pepper and black cherry.

TUSCANY

MONTALCINO

A region in Tuscany focusing on wines produced from Sangiovese Grosso. The wines are rich, intense and fleshy, with notes of blackberry, black cherry, raspberry, chocolate, leather, violets, vanilla, and game; sweet tobacco notes develop with age. More complex, and longer-lived than the Sangiovese produced in Chianti.

“SUPER TUSCAN”

Super Tuscans are red blends that stray from the strict laws governing the wines of Tuscany. The native Sangiovese grape is often blended with French varietals such as Cabernet Sauvignon, Merlot, Cabernet Franc and Syrah. Some bottle 100% varietal wines, a practice forbidden by many DOCs in Tuscany. The result of these experiments has been the creation of some of Italy's most sought after wines.

LEBANON

The improbable blend of Cabernet Sauvignon, Cinsault and Carignan from Lebanon's Bekaa Valley, gets at least a year on French oak, rests, and at year three is blended and bottle-aged for four more years prior to release. Drinkable upon release, these ageworthy, complex wines are best after at least ten years and just get better with age. The nose varies from wild herbs, earth, spice and anise to sweet fruit, tobacco and smoke. Musar reds are distinguished by two characteristics that are typically considered faults in most wines: volatile acidity (which conveys the smell of acetone) and Brett (its sensory compounds reminiscent of funky barnyard). Incredibly interesting wines.

PORT

Ports are named after the city of Oporto in Portugal, where they have made these dense, sweet wines for more than 300 years. It is common for blends to contain a dozen or more varietals of the more than 80 that are grown in Portugal. The wines are then fortified with brandy to stop fermentation, and boosting alcohol levels to 18-20%.

VINTAGE

Vintage ports come from a single year and are aged for two years in wood before maturing in bottle. These are top quality ports, but produced only three to four times per decade.

MADEIRA

Owned by Portugal, Madiera is a small, volcanic island off the coast of Morocco that produces, perhaps, the world's most resilient wine. There are four basic styles of Madeira: Sercial, the driest, is noted for almond aromas, nerve, and a searing finish. Verdelho is medium-dry, smoky, with a tang of acidity. Bual is medium-rich with higher sugar levels and balanced acidity. Malmsey is the sweetest Madeira with notes of caramel, toffee and vanilla, and gets richer with age.

SHERRY

These fortified wines from the city of Jerez in southwest Spain vary in style from Fino, a dry aperitif, to a richer, sweeter style like Oloroso. Sherry is produced by adding grape spirits to finished wine, then continuously blending together several different vintages stored in a series of casks, called a solera. Up to 33% of each cask can be withdrawn in any year and re-filled from recent vintages to ensure consistency of the finished wine. Oxidation plays an important role in the flavors of Sherry.
